1. The Property owner shall be supplied with a water meter obtained from the Village and the Property owner will install the water meter to the specifications of the Superintendent of Public Works **within 30 days** of receipt of the water meter.
2. The Village Department of Public Works will inspect the water meter installation upon the Property owner's notification of completion of installation.
3. Subsequent to the final inspection and approval of the installation, the Property owner will be billed the cost of the water meter unit.
4. Upon receipt of payment from the Property owner, the water meter and reader unit shall be considered the property of the Village.
5. Upon the effective date of completed water meter installation in accordance with the requirements of the Village, the Property owner shall be billed for water supplied as read and recorded through the meter at the prevailing applicable rate for municipal water service as set by Village Board resolution.
