Village of South Glens Falls  
Contract No. 2  
South Glens Falls WTP Upgrades Re-Bid

Re: Notice of Defective Work

Jersen Construction Group is in receipt of a letter from Miller, Mannix, Schachner & Hafner, LLC dated August 10, 2023 regarding defective work at the above reference project. The letter and attached notice of deficiency issued to the Village of South Glens Falls referenced two deficiencies: Case #1, surface imperfections on the exterior siding panels, and Case #2, damage to the GAC feed pump control panel.

Regarding Case #1, surface imperfections on the exterior panels, Jersen Construction Group offers the following options:

Option 1: Provide a credit of \$10,000.00 to leave the panels in place as currently constructed. The manufacturer, All Weather Insulated Panels will provide the full warranty specified as there is no damage to the panel other than the visual appearance. Acceptance of this option would allow for HVAC to be installed immediately without further delay to start-up and turnover.

Option 2: Provide the trim fix previously proposed which would include vertical trim pieces installed at each vertical joint resulting in a uniform appearance while covering the existing panel dents. Acceptance of this option would allow for HVAC to be installed immediately without further delay to start-up and turnover.

Option 3: Replacement of the existing panels as requested in the August 10<sup>th</sup> notice of defective work. This option would include an 8-10 week lead time for new panels as well as a 2-3 week install duration. Proceeding with this option would prevent HVAC installation for an additional 10-13 weeks, at which point HVAC work would commence followed by start-up and turnover.

Regarding Case #2, damage to the GAC feed pump control panel:

We believe this deficiency was issued to Jersen Construction Group in error as the damage to the control panel was caused by the electrical contractor who holds a prime contract with the Village. See attached correspondence from Delaware Engineering on June 13, 2023 acknowledging that the damage was not caused by Jersen.

Please review the options related to surface imperfections on the exterior panels as well as the responsibility for damage to the GAC feed pump control panel.

We look forward to resolving these deficiencies and moving forward with project completion.

Sincerely,

Pat,

I have not received any indication from the village that the panel is accepted in its current condition. In contrast I have received questions on how the panel will be addressed.

Ryan,

I will forward the confirmation of the warranty to the village.

I cannot guarantee acceptance of the damaged exterior on behalf of the village. It is understood that the damage was not caused by Jersen and therefore Jersen should not be responsible for the repair. I will discuss with the EC during the punch-list walkthrough.

Thank you

**Dated February 3, 2022**

**Dear Mr. Jersen:**

We represent the Village of South Glens Falls. Pursuant to 14.03 of the EJCDC General Conditions the Village's Engineer, Delaware Engineering, has determined the external panels of the pre-engineered metal building are defective as is the control panel for the Granular Activated Carbon feed pumps, and have rejected this defective work. We have enclosed a copy of their determination. The Village is seeking replacement of the defective work as required by 14.03(D) of the EJCDC General Conditions. Thank you.

Re: Village of South Glens Falls – WTP Upgrades – Notice of Defective Work

Dear Mr. Bodkin:

This letter serves to formally inform the South Glens Falls village board about the identified deficiencies in the water treatment plant upgrade project.

As defined in section 1.02.C.1.c of the EJCDC General Conditions included in the contract documents, the word “defective”, when modifying the word “Work,” refers to Work that is unsatisfactory, faulty, or deficient in that it has been damaged prior to Engineer’s recommendation of final payment.

It is our opinion that the following cases meet the criteria of defective work.

**Case #1:**

In March 2023, numerous surface imperfections were noted on the exterior panels of the pre-engineered metal building (PEMB). Arrays of depressions are evident on all sides of the structure, and a distinct crease is clearly visible along the west-facing wall.

### Case #2:

In April 2023, the control panel for the Granular Activated Carbon (GAC) feed pumps was accidentally dropped by the Contractor during offloading from the delivery truck. The panel landed on its rear side, resulting in a dent and scratches on the top-left rear surface of the enclosure. The panel manufacturer has confirmed that the NEMA rating of the enclosure has not been compromised, and the warranty remains valid. All interior components of the panel have been replaced.

**From: Mayor Nicholas Bodkin**

**08/17/2023**

I have to say following last night's meeting and executive session, I feel as though the line has been clearly crossed yet again. I have tried several times to write to all of you, requesting that we end the cycle of conflict. We all have sworn an oath when taking office and we have all been trained and have acknowledged the Village's workplace policies.

As elected officials, we should hold ourselves to a higher standard and I expect each of us to represent the best qualities of those we represent. Due to our inability to function professionally, our valued staff members have been drawn into our conflict, further creating disruption and liability to the day-to-day operations of Village business. Our professional associates have repeatedly been the brunt of criticism and treated inappropriately. There is a professional way to conduct business and accomplish the necessary business/actions without resorting to behavior that violates our code of conduct and oaths of office. Our inability to hold ourselves accountable and justifying actions that violate policy is inexcusable.

I feel strongly that our attorney is owed an apology for how she was treated. There may be other staff members that need the same. It is in the best interest for all involved to end the dysfunction and conflict.

Re: Legal Services

Dear Village Trustees:

The purpose of this letter is to either re-establish a slightly different relationship with the Village Board as your Village Legal Counsel or to terminate this professional relationship.

Our treatment by certain Trustees has become unacceptable and we are not prepared to tolerate it any further. We enjoy working for the Village and have no problem continuing as Village Legal Counsel if desired by a majority of the Village Board, but we are not prepared to perpetuate mistreatment by Trustees any longer. All of the other municipalities we represent treat us with the utmost respect and professional courtesy and we have no interest in continuing attendance at Village Board meetings at which this is not the case.

There are two possible ways to deal with the situation. First, we can amend our Agreement to indicate that our attendance at Village Board meetings will no longer be required. If this is the path chosen, then we can continue to perform the work for you without attending any meetings. While possibly not ideal, we are aware of similar arrangements elsewhere which have been successful. Second, unless the first choice we just identified is supported by a majority of the Board, we intend to resign as Village Legal Counsel and this correspondence constitutes our 30-day notice as provided for in our Agreement for legal services.
