Good morning,

Please review the attached quote from Nielsen Ford regarding purchasing a new police vehicle. It is for a 2023 holdover with the same warranty as a 2024 and is already fully equipped with the lights, siren and other equipment that I requested. It would only need to have the radios and computer switched over from the 2019 Ford and decals/lettering put on it. Nielsen Ford is on the state contract list. It can be delivered to the PD by the end of June according to the salesperson. I request the police car reserve funds be used for the purchase. Thank you.

To All,

I have a request from a resident that would like to add a second driveway. I reviewed the curb cut and the 50/50 sidewalk request but they would like to remove a village tree. The curb cut will allow them to have a second driveway to park one car, their situation is three cars and only a driveway for two. They were ticketed in the last snowstorm and do not want to continue to get a ticket. They have offered to plant a tree in front of their house at their expense. I let them know that this would need to be Board approved to take down the tree. I would assume they would be responsible to remove the tree as well. The curb cut and sidewalk will be dependent on the Boards decision on the tree. Can we please have this on the agenda for 5/1.

Thank You

Good Morning,

Tj came by this morning to check the curb for the curb cut. He said to reach out to you about wanting to remove the tree in front of where we need the driveway. There is room to plant another tree in front of the house.

We are in need of the additional driveway to avoid parking on the streets, especially during snow storms.

If any additional information is needed please let us know,

S. Allgeier
